

Drill 8-10mm hole in the centre of the top. Leave a gap of approximately 8mm from top of hole to top edge of shield

**Lochac Standard List Shield Template.
The shield should be 20cm across the top.**

Print from acrobat reader on A4 paper.

- Uncheck the "auto rotate and center" box.
- Check the "choose paper source by PDF page size box."
 - Set Page Scaling to "None"
- Make sure "Scale" is set to "100% of Normal Size" (it's default setting)

Maximum thickness 7mm. Recommend material is ~3mm whitefaced masonite.

A Lozenge of compatible size is overlaid for the use of female fighters or consorts who wish to display their arms on such a field rather than a shield.
